These BERKSHIRES originated on the Boston & Maine RR and later appeared on the Southern Pacific and the Santa Fe. These scale models are detailed after the blueprints of the T-1a.

The coffin feedwater heater mounted on the boiler front is one of the most exciting details to ever appear on a locomotive. The 3 Rail models come with Lionel TMCC® with RailSounds, Cruise Control, Coil Coupler and Chuffing Smoke. All of the features that have made 3rd rail models so desirable!
