

SP AC-9 THE LARGEST

3rd
rail

Twelve AC-9 class locomotives were built by Lima in 1939 and were Southern Pacific's biggest steam engines. The AC-9s were partially streamlined having skyline casings, and were equipped with coal tenders (222-R-1). When the AC9s were converted to Oil, they used modified tenders from the C&O H-7 (252-R-1). Choose from Oil or Coal Versions. Coming Dec 2013.

Sunset Models is Proud to announce the Anniversary Series production of the SP AC-9 2-8-8-4. Every conceivable detail has been included in this fine scale masterpiece. Opening Turret Hatches, Cab Doors and Sliding Cab Vents are just a few of the many details on this scale model. The Large 9000 Series Pittman motor and Sunset's "Quiet Drive" Mechanism powers the all sprung drivers and wheels around your layout with grace, while the improved Railsounds and TMCC in 3 Rail will astound you. Only 30 of each type of AC9 are being produced in 2R and 3R. Don't miss this opportunity to own our Latest Masterpiece of Art and Engineering. Reserve Yours TODAY!!!
