## ACE 3000

### Modern Steam Locomotive

The ACE 3000 was a prototype modern 4-8-2 coal-burning steam locomotive which was designed in the late 1970s to early '80s by Ross Rowland, L. D. Porta, and a design team from the American Coal Enterprises company.

The most Unique Steam Locomotive Design Ever Concieved. Never Before Produced in any Scale. With the permission from Mr. Rowlands, Sunset Models will reproduce this model in a variety of Liveries, as it was intended to be. The front unit is a 4-8-2 duplex while the rear unit is unpowered.

To make this project possible we need your Reservation!!!!

## B&O EL-3 & EL-5 2-8-8-0

B&O EL-5 Shown

Built for main-line service, these HUGE articulateds (2-8-8-0) were delivered in 4 batches over a 20 year period. Sunset Models is going to produce a model of the EL-3 as compound Mallets (With Huge Low Pressure Front Cylinders) as they were pre-1927, and the EL-5 as a simple-expansion 4 cylinder locomotive as they ran post-1927. Your reservation is what makes these projects happen, so if you want one, don't just sit there, reserve one TODAY!!!

## EMD SD40-2 Diesels

Announcing the EMD SD40-2 as never before produced in O Scale. Scale Accurate. ABS Body, Die Cast Trucks, Fixed Pilot, All Drivers Powered with real ball bearing journals and Full Cab Interior Lighted, Horizontal Motor Design (NO CHINA DRIVE), These fantastic models will perform smoothly and powerfully just like the prototye. Loaded Like All Get Out. Made to your reservations... Many Liveries available for reserve. Reserve Your SD40-2 Today!!!

## Rock Island ROCKET

In the midst of bankruptcy , the Rock Island gambled on a new set of streamlined lightweight passenger trains to return them to profitability. Leading each train set was a new TA Diesel from EMC. They also introduced the attractive ROCKET paint scheme of maroon, crimson and stainless steel.

Reserve the Diesel and set of 4 Aluminum Cars, Full Interior Detail, LED Lighting etc. Only 150 Sets Produced with all the details you expect. Reserve Today!!!

## PULLMAN 12-1 & 8-1-2 SLEEPERS IN ABS

The Pullman Company produced 1000s of Sleepers. They were used during WWII to transport troops across our great nation. After WWII these sleepers were leased and sold to most all railroads and painted in their liveries.

Golden Gate Depot is producing these 12-1 and 8-1-2 Sleepers in ABS Plastic, in all the roads listed below for your enjoyment. These Sleepers have the best interior detail of any car in this class. The underbody detail is only matched by brass models. The trucks are tried and true, with machined metal wheels that are nickel plated. Full Interiors with many figures per car. Overhead LED Lighting.

3 Rail Cars come with Lionel compatible couplers and will traverse 054 or Larger Track and Switches.
