**S**unset Models is proud to announce "LEGENDS" a series of highly detailed models blending Brass, Diecast and Plastic Productions of the most Legendary railroad models that ever existed. These fine-scale 1:87 productions will boast superior detail, lighting and "Soundtraxx" Digital Sound with DCC. The first production in our "LEGENDS" Series are 3 versions of the SP Pacifics, 1 of which is under steam in the Bay Area. These fine-scale models come with operating cab roof vents, tender water and oil hatches, and operating cab apron. The cabs are fully detailed with painted handles and dials. We are making these models to the reservations, so please make your reservation with us or your dealer as soon as possible. We do not require a deposit, only that you promise to buy when the models arrive. Rest assured, these will be super detailed models in brass that you can be proud to own and a joy to operate for a life-time. We estimate these will be available in the Fall of 2017. Production schedule depends on your reservations. Estimated MSRP \$699.95
