

# UNION PACIFIC M-10000 "THE STREAMLINER" 4 CAR SET

**THE ONLY TRUE O SCALE MODEL AVAILABLE IN 3 RAIL**

**L**ittle Zip represented the pinnacle of aerodynamic design for its day. Originally a 3 car train, the M-10000 could be seen zipping along at over 100 mph powered by a 600 hp spark ignition power plant. While on display at the Chicago World's Fair in 1934 a sleeper "Overland Trail" was added.

Sunset Models is bringing you this amazing example of American ingenuity in beautifully detailed lifetime brass. Both the head and tail cars are powered. Each truck has independently sprung axles. The decorated interiors have overhead constant voltage lighting. Each diaphragm is made of nylon fabric giving them an authentic scale appearance. No other manufacturer has made a scale model of the "Little Zip" for 3 Rail Operation. Over 70" of pure scale enjoyment awaits you.

With only 90 sets produced, not everyone can have the "Little Zip".
