

THIRD RAIL, the "O" Scale Leader in Value and Quality

Southern Pacific MT 4/5

The SP MT-4 and 5 Class mountains were designed to have maximum tractive effort for the 6000 foot climb out of Sacramento. The Sacramento General Shops of the Southern Pacific built 49 "Mountains" between 1925 and 1930.

Sunset Models is proud to announce a very collectible version of the SP MT-4s and 5s. Only 25 of each engine number are to be produced. Available in black or daylight livery (\$75).

Coming in late 2005 for \$1199.95 (black)

Norfolk and Western K-2A 4-8-2

Everyone will recognize this streamlined locomotive as it looks just like a J, but it ain't. After WWII, the K2 and K2a locomotives were fitted with streamlining and put into passenger service alongside the Js. A very important locomotive for the N&W, these workhorses remained in service until the end of steam. Look for a very limited production in 2R and 3R.

Suggested Retail \$1199.95
